

IPS (Inverter for Power Pupply)

SK Series Solar Inverter

Summarize:

SAKO SK solar inverter can convert 12V DC to 230V AC, it is suitable for such electrical home electrical appliance such as TV sets, Videos, Faximile , light , electrical articles for barber.

Main function:

- High efficiency
- Stable output voltage and frequency
- Full protection for overload and short circuit
- Empty load small current
- Quiet operation
- One touch operation
- Automatic over temperature
- ISO 9001:2000 and CE

Technical parameter:

Specification				
Model	SK-120W	SK-150W	SK-300W	SK-600W
Input				
Nominal voltage	12 Vdc			
voltage range	10-15 Vdc			
Output				
Power continuous	120W	150W	300W	600W

Max.surge power	200%
Voltage range	110V、 220V、 240V
Frequency	50HZ\60HZ
Wave form	Modified sine wave
Others	
Max. efficiency	>85%
PROTECTION	Over current and Over load protection
	Short circuit protection
	Over voltage protection, over temperature
INDICATION LED	On-Off / Alarm / Low Battery / Overload
OPERATION Temperature	0-45 Degree
Relative humidity	0-95% (non-condensing)
